

Blanca de Ulibarri

“Blanca de Ulibarri is the LCA Project Manager at RSB, where she leads the implementation of EU projects, with a focus on developing RSB certification systems. With over 12 years of professional experience, Blanca is a seasoned researcher in the areas of bioenergy, renewable energy, climate change, and sustainable development.

Currently she is involved in a diverse range of EU projects with a focus on SAF development such as ALIGHT, where she leads the Sustainable Airport Platform (SAP) and ICARUS working in developing new SAF certification value chains.
