

# Myrsini Christou

---

Agriculture engineer, with MSc on environmental planning. Working at CRES as leader of the Biomass department.

My expertise lies in the field of biomass availability and energy potential assessments, research on sustainable biomass production from a wide range of agricultural residues and energy crops and on the technical evaluation of integrated biomass value chains for energy and biorefinery concepts, being coordinator and scientific responsible in a range of R&I projects. Coordinator of **Icarus project** on sustainable aviation biofuels and **GreenMeUp** on the market uptake of biomethane.

I am coordinating the EERA Bioenergy Joint Programme and I am member of the Advisory Board of the European Technology and Innovation Platform (ETIP) Bioenergy, member of the Biomass Working Groups in ETIP Bioenergy and ETIP Renewable Heating and Cooling, member in the Board of Directors in Bioenergy Europe and the Hellenic Biomass Association (HELLABIOM) and in the Scientific Committee of the European Biogas Association.
